

# IAM CLI Commands

## List Users

```
aws iam list-users
```

This command will list all the users in the account and their metadata.

Example output:

```
{
  "Users": [
    {
      "Path": "/",
      "UserName": "Alice",
      "UserId": "AIDAJDPLRKLG7UEXAMPLE",
      "Arn": "arn:aws:iam"
    },
    {
      "Path": "/",
      "UserName": "Bob",
      "UserId": "AIDAJDPLRKLG7UEXAMPLE",
      "Arn": "arn:aws:iam"
    }
  ]
}
```
